ASSEMBLY**

Saboba District Community Foundation undertook sensitization on the effects of Teenage Pregnancy, Alcoholism and Drug Abuse on BECE in some JHS in the District in June, 2023. The objective of the exercise was to if not totally eliminate, then reduce the incidents of Girls writing exams either with pregnancy or nursing babies.

The Foundation noticed that during 2021 BECE, 18 girls wrote the exams either with pregnancy or nursing babies.

This exercise will in no doubt, help improve BECE performance especially among girls this year.

**SUCCESS STORY**

Community members have become conscious of the Presence and importance of having a Community Foundation. The Foundation can now lay hands on an Action Plan.

**CHALLENGES:**

Currently the foundation has no program manager because the former PO has taken an appointment outside the District hence our inability to do more, however the Board is making efforts to appoint a new PO.

The Foundation is unable to raise funds during the period under review due to the prevailing conditions within the area which are not conducive to undertake such a crucial exercise, but management is strategizing to set the ball rolling soon. Sensitization exercise could not cover more schools due to Financial Constraint

Also attached are pictures of some of the activities done.

Thank you.
